Alias

CCBlaker

Summary

My name is Charlie, I'm a student and 3D Technical Artist with experience in shaders, programming, procedural tools, and the 3D Environment Art/Asset Pipeline. However, I'm attracted to learning new tools, my greatest strength being the ability to utilize both artistic and technical experience in tandem.

Work Experience

Campbell House

Unreal 5 UI, Environment, and Technical Generalist

Winter 2024

Freelance project formatting and designing a Historical/Architectural Visualizer in

Spring 2024

Unreal Engine. Coded and Designed Widgets and UI to easily display information as well as environment design for the location.

Unity Shader and Environment Generalist

Fall 2025

Student Game work for Survival Horror Game Permafrost. Designing environment assets to be

Present

implemented in Unity. Procedural material creation and Unity shader development.

AYR

Textile Designer

Spring 2023

Freelance work for Textile company AYR, creating textile designs, production artwork, and original

Fall 2024

colorways of woven patterns for men's shirts.

Collaboration Projects

RIT SNF Lab

Technical Generalist and Diegetic UI Designer for Unreal

Winter 2026

Work for creating a Digital Twin of RIT's Semiconductor Nanofabrication Lab for educational and

Present

training purposes. Technical Generalist, setting up blueprint systems for player and game logic as well as a Diegetic UI tools and interaction tools with environment.

100 Hour Project

Project Lead & Technical Shader Artist

Spring 2026

3D Major-wide group project at RIT led by Juniors every year. Project in Unreal 5.7, involved heavy Project Pipeline Management. Version control system using Git LFS, Irridescent & Refractive Crystal Material system, Blueprint Systems. Team leadership and organizational experience as well.

Activities & Volunteering

RITGraph

RIT SIGGRAPH Student Chapter and Club Leadership

Spring 2024

Vice-Chair at RITGraph, RIT's Computer Graphics club official SIGGRAPH student chapter.

Present

- Public Demos and Workshops on topics such as Visual Scripting, PBR Lighting Loops, Iterative Raymarching, and Fractal Rendering in GLSL.
- Financial Management, Advertising, Event Planning, and Club Organization.

SIGGRAPH

Student Volunteer

Summer 2025

Student Volunteer for SIGGRAPH 2025 in Vancouver. Variety of jobs interacting with and helping guests include: Informational Guide, Exhibition Assistant, Conference Usher, Catering, ect

Education

Rochester Institute of Technology

BFA - (Bachelor of Fine Arts)

3D Digital Design Major - Junior

Mathematics Minor

Relevant Courses:

- Computer Science (Python, C++)
- DirectX 11 Game Graphics Programming
- Multivariable and Vector Calculus
- Advanced Linear Algebra

Skills

- Environment Art
- Procedural Materials
- Procedural Geometry Tools
- Visual Scripting and Logic
- Shader Programming
 - DirectX 11 - HLSL
 - Vulkan - GLSL
- C++ and Python Programming
- VFX and Compositing
- 3D Art for Game Dev
- Mathematics - Linear Algebra

Software

Unreal Engine

Houdini

Blender

Autodesk Maya

Substance Painter

Substance Designer

Adobe Illustrator

Adobe Photoshop
