Summary

My name is Charlie, I'm a student and 3D Technical Artist with experience in shaders, programming, procedural tools, and the 3D Environment Art/Asset Pipeline. However, I'm attracted to learning new tools, my greatest strength being the ability to utilize both artistic and technical experience in tandem.

Work Experience

Permafrost Unity Shader and Environment Generalist

Fall 2025 Student Game work for Survival Horror Game Permafrost. Designing environment assets to be implemented in Unity. Procedural material creation and Unity shader development.

SNL Digital Twin Technical Generalist and Diegetic UI Designer for Unreal

Winter 2026 Work for creating a Digital Twin of RIT's Semiconductor Nanofabrication Lab for educational and training purposes. Technical Generalist, setting up blueprint and c++ systems for player and game logic as well as a Diegetic UI tools and interaction tools with environment.

Campbell House Unreal 5 UI, Environment, and Technical Generalist

Winter 2024 Freelance project formatting and designing a Historical/Architectural Visualizer in Unreal Engine. Coded and Designed Widgets and UI to easily display information as well as environment design for the location.

100 Hour Project Project Lead & Technical Shader Artist

Spring 2026 3D Major-wide group project at RIT led by Juniors every year. Project in Unreal 5.7, involved heavy Project Pipeline Management. Version control system using Git LFS, Iridescent & Refractive Crystal Material system, Blueprint Systems. Team leadership and organizational experience as well.

AYR

Textile Designer

Spring 2023 Freelance work for Textile company AYR, creating textile designs, production artwork, and original colorways of woven patterns for men's shirts.

Activities & Volunteering

RITGraph RIT SIGGRAPH Student Chapter President

Spring 2024 Current President of RITGraph, RIT's Computer Graphics Club and SIGGRAPH student chapter

Present

- Public Demos and Workshops on topics such as Visual Scripting, PBR Lighting Loops, Iterative Raymarching, and Fractal Rendering in GLSL.
- Financial Management, Advertising, Event Planning, and Club Organization.

SIGGRAPH Student Volunteer

Summer 2025 Student Volunteer for SIGGRAPH 2025 in Vancouver. Variety of jobs interacting with and helping guests include: Informational Guide, Exhibition Assistant, Conference Usher, Catering, et cetera

Education

Rochester Institute of Technology BFA - (Bachelor of Fine Arts)

3D Digital Design Major - Junior
Mathematics Minor

Relevant Courses:

- Computer Science (Python, C++)
- DirectX 11 Game Graphics Programming
- Multivariable and Vector Calculus
- Advanced Linear Algebra

Skills

- Environment Art
- Procedural Materials
- Procedural Geometry Tools
- Visual Scripting and Logic
- Shader Programming
 - DirectX 11 - HLSL
 - Vulkan - GLSL
- C++ and Python Programming
- VFX and Compositing
- 3D Art for Game Dev
- Mathematics - Linear Algebra

Software

Unreal Engine

Houdini

Blender

Autodesk Maya

Substance Painter

Substance Designer

Adobe Illustrator

Adobe Photoshop
